PROJECTS

YelpCamp2023
- Designed and deployed a full C.R.U.D application of a Yelp-like campground site
- Utilized Mongodb Atlas, Render, Node.js, Express, EJS, JavaScript, Cloudinary, Bootstrap CSS and implemented Security and Authentication practices

Front End Mentor Projects
- Implemented several solutions for Front End Mentor web development challenges
- Used semantic HTML, JS, and CSS to build products such as a responsive card details form, a QR code site, a results summary page, and a product preview card

Database Project
- Created a database using SQL to replicate a commercial database
- Produced tables, inserted mimic consumer data, and generated ER Diagrams of the database relationships

EXPERIENCE

Advent Health, *Information Systems Analyst*| Orlando, Florida   **Jul 2021 – Present**
- Employed as a full time Analyst for Advent Health AIT Department
- Engaged with ITIL systems to monitor tickets and manage high volume call and chat support times
- Gained experience with systems such as Control Access Utility, Active Directory, ServiceNow, Epic and Citrix based applications
- Worked with Office 365 Applications, troubleshooted hardware and software related issues, and provided world class service

Publix Super Markets, *Deli Clerk*| Orlando, Florida   **Jun 2019 – Jun 2021**
- Excelled in a fast-paced, customer service-oriented environment
- Worked efficiently as a team member while functioning within set regulations and health guidelines
